

## **Brief Profile – Shailendra Tiwari**

### **Ph.D.(P), M.Sc.(Ag), MBA**

Shailendra Tiwari is an agricultural professional and researcher with experience in teaching, research, and extension in agriculture and horticulture. He worked as an Assistant Professor in the Department of Agriculture at Dolphin (P.G.) Institute of Biomedical and Natural Sciences from January 2016 to August 2023. During his tenure, he was actively involved in undergraduate and postgraduate teaching, farmer training programs, research guidance, organic farming promotion, protected cultivation, and extension activities for sustainable agricultural development.

He is currently pursuing a Ph.D. in Seed Science and Technology and also holds an MBA in Marketing Management from Indira Gandhi National Open University. He completed his M.Sc. in Agriculture from Veer Chandra Singh Garhwali Uttarakhand University of Horticulture and Forestry, with a specialization in agricultural sciences.

His research interests include seed science, nanoparticle seed priming, sustainable agriculture, integrated nutrient management, crop improvement, and organic farming. He has presented several research papers at national and international conferences on lentil seed quality, barley nutrition management, cowpea weed management, and climate-smart agriculture. He has also received awards for Best Oral Presentation and Best Paper Presentation for his scientific contributions.

Shailendra Tiwari has published research papers in reputed agricultural journals and actively contributes to academic and scientific events as an organizing committee member and conference coordinator. He is a life member of BioThink: National Academy of Bio Sciences and Association of Plant Science Researchers. His strengths include research aptitude, leadership, communication skills, teamwork, and dedication toward sustainable agricultural development.
